### Top Line ACA Talking Points

#### KEY POINTS

- All plans cover the basics.** Doctor visits, hospital stay, preventive care like checkups and mammograms, prescriptions, and more.
- Low-cost and free plans are available.** Depending on how much money you make, you could get help paying for it.
- Community health centers.** If you didn't qualify for a subsidy last year or the premiums were beyond your budget, you can try again this year or connect with one of our state's federally qualified community health centers.
- No one can be denied coverage** for a pre-existing condition.
- No fine print.** No sales pitch. Just a side-by-side comparison of plans.

#### TALKING POINTS

##### **Millions of Americans are already benefitting from ObamaCare**

- Insurance companies are no longer in charge and they can't deny you care for preexisting conditions or put a lifetime cap on your coverage.
- Being a woman is no longer a preexisting condition and you get access to free contraception and well woman examinations.
- Latinos and African Americans, who historically have had less access to care and greater health problems, can sign up just like anyone else.
- Young adults can stay on their parents plan until they are 26.
- Senior citizens get cheaper prescription drugs and free preventative care.
- Small businesses get tax credits and can pool together on the One, Mississippi website to get cheaper rates like big corporations do.

##### **Thousands of Mississippians will have access to helpful healthcare information beginning November 1.**

- Everyone can go online to use the healthcare marketplace to shop around for the best deal they can get for themselves and their family.
- Everyone can check if they qualify for subsidies to help with their premiums.
- Everyone can check if they or their family members qualify for Medicaid or CHIP.
